MODEL INFORMATION

Aqua Best 200 GPD Water Purifier

Clean, great-tasting drinking water at home or at work, without the fuss.

QUOTATION ONLY

Supply, installation and service requirements are reviewed for your location and equipment.

Equipment illustration. Final model and configuration are confirmed in the quotation.

Water you will actually enjoy drinking

Capacity	200 gallons per day (GPD)
Filtration	5-stage RO
Membrane	High-quality RO membrane
Prefilters	20 in sediment, carbon block, GAC
Post filter	Inline carbon filter for taste
Pump	Booster pump for steady pressure
TDS reduction	Reduces TDS and heavy metals
Storage tank	11 gallon, food-grade
Operating pressure	30 to 100 PSI
Inlet water	Municipal or tap water
Installation	Under-sink or wall-mount

System components / treatment stages

Stage / component	Purpose
20" Sediment Filter	This is the first line of defence. It catches dust, rust and grit so the later stages stay clean and protected.

Stage / component	Purpose
Carbon Block Filter	It takes care of taste and smell, and it also looks after the RO membrane.
GAC Filter	Granular activated carbon works on chlorine and other things that make water taste a little off.
RO Membrane	The heart of the system. It reduces dissolved salts (TDS) and heavy metals, which is what makes the water properly pure.
Inline Carbon Post Filter	One last carbon filter gives the water a clean, fresh finish just before it reaches your glass.

Pump, tank and easy installation

The booster pump keeps the water pressure stable, so the RO membrane can do its job properly.

Purified water is stored in a food-grade tank, so it is ready the moment you want a glass.

How your water gets cleaned

Your water passes through five stages, each one doing its own job, before it reaches your glass.

Installation and handover checklist

• Share your location, water use, incoming-water information and the required flow or daily output.

• Send installation-space photos and confirm the proposed model's water, power and drainage requirements.

• Ask the quotation to list the purifier, any tank and accessories, fitting work, consumables and handover instructions.

Common product questions

Do you install and look after it?

Yes. We install it, change filters and keep it running across Dubai and the rest of the UAE.

What does 200 GPD actually mean?

GPD means gallons per day. It is roughly how much purified water the system can make in 24 hours. The real number changes a little with water temperature, pressure and how clean your incoming water is.

Quotation, installation & after-sales support

Pricing	Quotation only. The written proposal identifies the equipment and included work.
AMC / servicing	Ask for an equipment-specific maintenance scope, consumables, exclusions and visit arrangements.
Warranty	Request the written warranty for the selected model, with coverage, exclusions and claim procedure.

Before requesting a quotation

Send your UAE location, intended use, water information, required flow or daily output, and photos of the installation space. For replacement parts, include the existing model and component labels.

Published ratings describe the listed equipment or configuration. Actual performance depends on feed water and operating conditions. Confirm the exact model, current specifications and manufacturer documentation in the quotation.

ANNUAL MAINTENANCE CONTRACT

AMC coverage and terms

AQUA BEST WATER TREATMENT EQUIPMENT TRADING LLC

The AMC applies only to the water treatment system and service location identified in the customer's quotation or contract. It is valid for 12 months from the agreed start date. The number and timing of service visits, included consumables, and contract price are as stated in the quotation.

Equipment-specific maintenance

For softeners, media filters, UV units, chillers, commercial RO plants, and industrial systems, the visit frequency and included replacements must be listed separately in the site-specific quotation.

Scheduled service

During a scheduled visit, Aqua Best will inspect the covered system, check for visible leaks and operating issues, and replace only the consumables specified in the contract. Service scope depends on the system model, installed configuration, and access to the equipment.

Terms and conditions

1. The AMC covers only the visits, consumables, and work expressly stated in the quotation or signed contract.

2. Additional cartridges, media, resin, membranes, UV lamps, electrical parts, pumps, repairs, and modifications are charged separately unless specifically included.

3. Aqua Best will explain any additional recommended work and obtain the customer's approval before carrying out chargeable work.

4. The customer must provide safe access to the equipment and ensure that the required water and electrical supplies are available during the visit.

5. Service visits are arranged by appointment. If access is unavailable at the agreed time, the visit must be rescheduled subject to appointment availability.

6. The AMC does not cover damage caused by misuse, unauthorised repair, abnormal water conditions, power fluctuations, external leaks, or other causes outside the listed service scope.

7. The AMC price, payment schedule, and VAT treatment are as stated in the quotation.

8. The AMC applies to the equipment and service address recorded in the contract. Changes to the equipment or location may require a revised quotation.

9. Any warranty on replaced parts is subject to the applicable manufacturer or supplier warranty.

10. Renewal, cancellation, emergency callouts, and response times are governed by the terms stated in the quotation or signed contract.

Pricing is quotation only. Product warranty terms are confirmed separately.
