MODEL INFORMATION

Aqua Best 2000 GPD Water Purifier

A large commercial RO system for hotels, factories, hospitals and kitchens that use a lot of clean water every single day.

QUOTATION ONLY

Supply, installation and service requirements are reviewed for your location and equipment.

Equipment illustration. Final model and configuration are confirmed in the quotation.

Sized for real demand

Filtration capacity	2000 GPD
Filtration stages	5-stage RO system
Membrane type	High-performance RO membrane
Prefilters	20" sediment, carbon block
Pump	Heavy-duty booster pump
TDS reduction	Helps reduce TDS, heavy metals and chemicals
Storage tank	1000 gallon, food-grade, pressurized (optional)
Operating pressure	30-100 PSI
Inlet water source	Tap, well or municipal water
Installation	Floor-standing unit

System components / treatment stages

Stage / component	Purpose
Sediment Filter, 20"	The first line of defence. It catches sand, rust, dust and grit so the rest of the system stays protected.
Carbon Block Filter, 20"	Helps reduce chlorine, smells and organic chemicals, and shields the membrane from damage.

Stage / component	Purpose
High-Performance RO Membrane	The main purification stage. It is built to help reduce dissolved salts, heavy metals, chemicals and other contaminants.
Heavy-Duty Booster Pump	Keeps the pressure and flow rate steady, so output stays consistent even when the system works hard.
Optional 1000 Gallon Tank	A food-grade pressurized tank that stores purified water, so busy periods never catch you short.

Where it is used

Restaurants / Hotels / Cafés / Commercial kitchens / Factories / Industrial units / Hospitals

Built for large, steady demand

The 2000 GPD is a commercial reverse osmosis system for places where water use is high and does not stop. It can make up to 2,000 gallons a day, which is roughly 7,500 litres, enough to keep a hotel, a food plant or a busy hospital kitchen supplied with purified water.

It runs on tap, well or municipal water, and a heavy-duty booster pump keeps the flow steady. If your water comes from a well, have it tested first so we can check whether extra pre-treatment is needed. Final water quality depends on your incoming water, the condition of the membrane and regular servicing.

What does the work

Prefilters clean the water first and protect the membrane. The membrane does the main purification, the pump keeps the pressure right, and an optional tank stores the output.

Installation and handover checklist

• Provide a current source-water analysis, intended use and required output with daily operating hours.

• Confirm the plant location, utilities, storage, connections and any concentrate or drainage arrangements.

• Ask for the proposed equipment duty, commissioning scope, handover records and maintenance responsibilities.

Common product questions

What does it need to install?

It is a floor-standing unit, so you need floor space, a power connection and a drain. It works at 30 to 100 PSI. We will check the site and confirm the layout.

Do you install it?

Yes. We install and look after it across Dubai and the rest of the UAE.

Quotation, installation & after-sales support

Pricing	Quotation only. The written proposal identifies the equipment and included work.
AMC / servicing	Ask for an equipment-specific maintenance scope, consumables, exclusions and visit arrangements.
Warranty	Request the written warranty for the selected model, with coverage, exclusions and claim procedure.

Before requesting a quotation

Send your UAE location, intended use, water information, required flow or daily output, and photos of the installation space. For replacement parts, include the existing model and component labels.

Published ratings describe the listed equipment or configuration. Actual performance depends on feed water and operating conditions. Confirm the exact model, current specifications and manufacturer documentation in the quotation.

ANNUAL MAINTENANCE CONTRACT

AMC coverage and terms

AQUA BEST WATER TREATMENT EQUIPMENT TRADING LLC

The AMC applies only to the water treatment system and service location identified in the customer's quotation or contract. It is valid for 12 months from the agreed start date. The number and timing of service visits, included consumables, and contract price are as stated in the quotation.

Equipment-specific maintenance

For softeners, media filters, UV units, chillers, commercial RO plants, and industrial systems, the visit frequency and included replacements must be listed separately in the site-specific quotation.

Scheduled service

During a scheduled visit, Aqua Best will inspect the covered system, check for visible leaks and operating issues, and replace only the consumables specified in the contract. Service scope depends on the system model, installed configuration, and access to the equipment.

Terms and conditions

1. The AMC covers only the visits, consumables, and work expressly stated in the quotation or signed contract.

2. Additional cartridges, media, resin, membranes, UV lamps, electrical parts, pumps, repairs, and modifications are charged separately unless specifically included.

3. Aqua Best will explain any additional recommended work and obtain the customer's approval before carrying out chargeable work.

4. The customer must provide safe access to the equipment and ensure that the required water and electrical supplies are available during the visit.

5. Service visits are arranged by appointment. If access is unavailable at the agreed time, the visit must be rescheduled subject to appointment availability.

6. The AMC does not cover damage caused by misuse, unauthorised repair, abnormal water conditions, power fluctuations, external leaks, or other causes outside the listed service scope.

7. The AMC price, payment schedule, and VAT treatment are as stated in the quotation.

8. The AMC applies to the equipment and service address recorded in the contract. Changes to the equipment or location may require a revised quotation.

9. Any warranty on replaced parts is subject to the applicable manufacturer or supplier warranty.

10. Renewal, cancellation, emergency callouts, and response times are governed by the terms stated in the quotation or signed contract.

Pricing is quotation only. Product warranty terms are confirmed separately.
