MODEL INFORMATION

Aqua Best 400 GPD Water Purifier

A high-capacity RO purifier for homes, offices and cafés that get through a lot of drinking water. Five stages of filtration, a strong pump and an 11 gallon tank that is always ready.

QUOTATION ONLY

Supply, installation and service requirements are reviewed for your location and equipment.

Equipment illustration. Final model and configuration are confirmed in the quotation.

Built to keep up with demand

Filtration capacity	400 GPD
Filtration stages	5-stage RO
Membrane type	High-performance RO membrane
Prefilters	20" sediment, carbon block, GAC
Post filter	Inline carbon filter
Pump	High-pressure booster pump
TDS reduction	Helps reduce TDS, heavy metals and chemicals
Storage tank	11 gallon, food-grade, pressurized
Operating pressure	30-100 PSI
Inlet water source	Tap, well or municipal water
Installation	Under-sink or wall-mounted

System components / treatment stages

Stage / component	Purpose
Sediment Filter, 20"	Catches sand, rust, dust and other visible particles so they do not clog the filters that come after it.

Stage / component	Purpose
Carbon Block Filter, 20"	Helps cut down chlorine, smells and organic chemicals, and shields the membrane from damage.
GAC Filter, 20"	Granular activated carbon takes the taste and odour a step further and helps reduce unwanted chemicals.
High-Performance RO Membrane	The heart of the system. It is built to help reduce dissolved salts, heavy metals and other contaminants.
Inline Post Carbon Filter	A last carbon pass right before the tap, so the water tastes fresh when it reaches your glass.

Where it is used

Homes / Offices / Cafés / Small businesses

More water, the same clean taste

If a smaller purifier struggles to keep up with your household or your shop, the 400 GPD is the next step up. It gives you twice the daily capacity of our 200 GPD model, so there is enough clean water even when several people are filling glasses and bottles through the day.

It runs on tap, well or municipal water. If you are on a well, we suggest getting the water tested first, because well water can carry things that an RO system alone is not meant to handle. Final water quality depends on your incoming water, the condition of the membrane and regular servicing.

What happens to your water, step by step

Three prefilters clean the water first and protect the membrane. The membrane does the heavy lifting, and one last filter takes care of the taste.

Installation and handover checklist

• Share your location, water use, incoming-water information and the required flow or daily output.

• Send installation-space photos and confirm the proposed model's water, power and drainage requirements.

• Ask the quotation to list the purifier, any tank and accessories, fitting work, consumables and handover instructions.

Common product questions

Can I get a quote?

Yes. Tell us your property type and how much water you use, and we will send you a quote.

Where can it be installed?

Under the sink or on a wall. Send us a photo of the space or tell us the layout, and we will suggest the best spot.

Quotation, installation & after-sales support

Pricing	Quotation only. The written proposal identifies the equipment and included work.
AMC / servicing	Ask for an equipment-specific maintenance scope, consumables, exclusions and visit arrangements.
Warranty	Request the written warranty for the selected model, with coverage, exclusions and claim procedure.

Before requesting a quotation

Send your UAE location, intended use, water information, required flow or daily output, and photos of the installation space. For replacement parts, include the existing model and component labels.

Published ratings describe the listed equipment or configuration. Actual performance depends on feed water and operating conditions. Confirm the exact model, current specifications and manufacturer documentation in the quotation.

ANNUAL MAINTENANCE CONTRACT

AMC coverage and terms

AQUA BEST WATER TREATMENT EQUIPMENT TRADING LLC

The AMC applies only to the water treatment system and service location identified in the customer's quotation or contract. It is valid for 12 months from the agreed start date. The number and timing of service visits, included consumables, and contract price are as stated in the quotation.

Equipment-specific maintenance

For softeners, media filters, UV units, chillers, commercial RO plants, and industrial systems, the visit frequency and included replacements must be listed separately in the site-specific quotation.

Scheduled service

During a scheduled visit, Aqua Best will inspect the covered system, check for visible leaks and operating issues, and replace only the consumables specified in the contract. Service scope depends on the system model, installed configuration, and access to the equipment.

Terms and conditions

1. The AMC covers only the visits, consumables, and work expressly stated in the quotation or signed contract.

2. Additional cartridges, media, resin, membranes, UV lamps, electrical parts, pumps, repairs, and modifications are charged separately unless specifically included.

3. Aqua Best will explain any additional recommended work and obtain the customer's approval before carrying out chargeable work.

4. The customer must provide safe access to the equipment and ensure that the required water and electrical supplies are available during the visit.

5. Service visits are arranged by appointment. If access is unavailable at the agreed time, the visit must be rescheduled subject to appointment availability.

6. The AMC does not cover damage caused by misuse, unauthorised repair, abnormal water conditions, power fluctuations, external leaks, or other causes outside the listed service scope.

7. The AMC price, payment schedule, and VAT treatment are as stated in the quotation.

8. The AMC applies to the equipment and service address recorded in the contract. Changes to the equipment or location may require a revised quotation.

9. Any warranty on replaced parts is subject to the applicable manufacturer or supplier warranty.

10. Renewal, cancellation, emergency callouts, and response times are governed by the terms stated in the quotation or signed contract.

Pricing is quotation only. Product warranty terms are confirmed separately.
